

Mission

Produce – Support – Sustain for the Warfighter

Vision

Recruit, develop, and retain empowered Airmen producing war-winning products and services for the Warfighter

Goals

Goal 1: Resources Optimize resources required to meet current & future mission needs with increased focus on the nuclear enterprise, fifth generation aircraft, and software

Goal 2: People Recruit, cultivate, and empower resilient, respectful, and respected Airmen embracing Art of the Possible to support current and future workloads

Goal 3: Process Continuously improve processes in support of the Warfighter through utilization of Art of the Possible

Goal 4: Mission Execution Leverage Art of the Possible to achieve “Road To...” goals to increase Warfighter readiness

Built Right, Ready to Fight!

Current as of 1 May 18

Safety Policy

- Embrace a safety culture daily
- Implement sound risk management strategies; ensure adherence with environmental, safety, and health standards; and keep product safety at the forefront
- Providing safe, reliable and airworthy products to the Warfighter is our mission and priority

Excellence Starts With Me!

Knowing my process

- Know your regulations, procedures and job requirements
- Be aware that the products we produce impact the safety of the Warfighter

Performing my process

- Demonstrate you know rules, regulations, processes, and procedures
- Protect yourself, your co-workers, and support the Warfighter

Proving my process

- Be inspection ready everyday

Improving my process

- Proactively identify and address risks and opportunities
- Identify and solve issues
